ON DIVISION OF PROPERTY

The petition of William H. Davidson of New London against, James Davidson and Richard C. Davidson of that city, Louisa Camp of Plaintiels, N.J. Ellen F. Davidson and John M. Davidson of New York and Emma E. Oeser of Lawrence, Mass., for the partition of property at Fort Neck was heard before Judge John W. Banks in the superior court at New Lon-don Thursday morphis. All the parties in the sult are brothers and matera. The property in question consists of two tracts of land on opposite corners of Smith and Cheisea streets. The plaintiff ewns as multivided half interest and the tefendants own the remaining one-half. In his petition the plaintiff, asks for a physical division of the property while the defendants claim that the property while the defendants of the same proportion to its gross earnings at the beginning of federal control, its credit would now be re-established and it would earn a substantial sum available for a division could be made of one of the tracts of land with an equal value and fairness to all the parties because of its irregularity has more than absorbed the great improvements in capacity and in economy of operation. If the company's net earnings were in the same proportion to its gross earnings at the beginning of federal control, its credit would now be re-established and it would earn a substantial sum available for a definite and control its credit.

Transportation Volume Greater.

A definite and control its increased to follow the increased cost of such service. fairness to all the parties because of its irregularity and warp nature of the land in one part of the tract. There was nothing to prevent a physical division of the other trace however.

The plaintiff went on the stand and testified as to his interest in the property. He said that he saidthat a physical partitien of the property because he wanted the land need, which belonged to his fa-ther, and not the money. In his opinion the land sould be divided with fairness to

Judge Banks took the papers and reserved decision. The plaintiff was represented by Attorneys A. P. Tanner and George C. Morgan; Jemes Davidson was represented by Attorney Tracy Waller, and Attorney Arthur T. Keefe appeared for the remaining heirs and defendants.

Although it has been known for more control with a test period surplus of an armoning into use as a substitute for sork in some of its capacities. It is the lightest commercial wood known, and a paraffine treatment makes it available for many purposes for which cork hosts.

Cuticura Soap -Is Ideal for-The Complexion

Admiral von Tippitz said he had little patience with the controversy now raging or through their own or through gaining political in England over the submarine and the surface warship, and declared it was largely due to a lack of information among many disputants, a conflict of personal interests, and a "desire on the particle the natural development of control of the English cabinet to keep the world only to schales for the moment has conjugate to a lack of information among many disputants, a conflict of pertemplate the natural development of conflicting interests in the Pacific that call for decision, and must inevitably face the accomman, military and political hostility of Japan.

"In reality," he said, "the war, so far

SHOWS WHY NEW HAVEN

ROAD IS FACING DEFICIT President E. J. Pearson of the New York, New Haven and Hartford, in a statement issued Wednesday sums up the reasons why the road faces a deficit despite economies in operation introduced and increased rates granted. His state-

ment follows:

Net revenues from late advances have not equalled those of other railroads because the cost of its greater propor-tion of distributive and terminal service

A definite and constructive policy has been consistently followed during the past several years by the New Haven. This was for the particular purpose of giving the public the best service possible; also of putting its house in order before proceeding with a request for the further adjustment in rates or divisions which are necessary to establish credit. Its adjustment in rates or divisions which are necessary to establish credit. Its transportation system exclusively serves, approximately three million four hundred thousand people in Southern New England, 3 1-4 per cent, of the population of the United States. During these several years industry has prospered. Transportation furnished has increased more than one-third. Credit of the system is essential to its continued improvement, which in turn is a necessity to the prosperity of the territory it serves.

the territory it serves. The New Haven system entered feder 1920, and an operating ratio for Septe ber. October and November averag W1.4 per cent.

Larger Share of Rates Needed. As the information preparatory to the rate case, Interstate Commerce Commis-sion Ex Parte 74, Indicated that the in-

"All Our Ladies' and Men's High Shoes

In explanation of the cause of the greater difficulties of the New Haven and in comparison with roads west:

Cost of transportation of fuel over foreign carriers has increased due to increases in rates which are in their be-

half ..... \$2,050,000 less amount results in total. from the rate advances, because they were greater on freight; New Haven traffic divided about 58-58; roads

divided about 50-50; roads west averaged 75 p. c. freight, 25 p. c. passenger.. Effect of increases in fuel; materials and labor; the increase for that portion of labor only, covering the greater number of employes required for perform, ance of distributive and terminal service. minal service ..... 9.000,000

In pursuance of its constructive pro-In pursuance of its constructive program during the past several years the following results have been obtained:
Approximately \$45,000,000 have been expended on capital account, not including approximately \$20,000,000 for equipment, which has been received under trust on which payments of \$5,300,000 have been made. These improvements have enabled a transportation record for two years which, except for period of strikes and weather adversity, would have been without necessity for general

per cent. more in ton miles and 36 per cent. in passengers one mile has been handled with an actual decrease approximating 6 per cent in freight and passenger train miles, and a decreasing trend in man hours; an effective exemplification of one-atime recommy.

of operating economy.

If the price levels of a few years ago could have been retained, the benefits from increased traffic, improvements to the property, operating economy and rates advanced by the company, would have justified present consideration of a dividend. If in addition the mileage basis because the cost of its greater proper-tion of distributive and terminal service has increased with disportionate rapid-tity and because divisions of the through rates have not been increased to follow Returns from the bureau of valuation

Returns from the bureau of valuation are now tentatively available.

There has been careful attention to the readjustment of service and working methods, pursuant to the practices established under federal control.

The course now 1 sing takes is in pursuance of the provisions of the transportation act.

Through the discontinuance of dividenda, stockholders have suffered 2 loss of roughly \$66,000,008, 42 per cent of the par of their stock. For a number of years an analysis of

For a number of years an analysis of revenues and expenses has been made. It consistently shows that passenger traffic has been at least fairly self supporting, althoung not sufficiently so under the present conditions of rates and operating costs to carry its proportion of the investment; that revenues from freight are absorbed by its operating expenses, with nothing for taxes and investment.

The analysis of freight traffic shows approximately:

	er Ton Mile.s	files. Haul	er Cent.	tevenues
Inter Trunk		1085		15 ·
Line		88.7	136.29	.01541

sion fix Parte 74, indicated that the inclusion of the New Haven in the eastern region would benefit the whole approximately \$15,500,000, but the New Haven would be short this amount in earning 8 per cent. on its property investment account, negotiations for increased divisions have been under way since April 1920. If the New Haven had received through divisions or otherwise the approximate amount of \$15,600,000, and if the changes which and for the reasons shown in-

VON TRRITZ ON NAVAL NEEDS OF U. S.

Saint Blaises, Baden, Feb. 18 (By the A. P.).—Admiral Van Tirpits, the German naval inthority in the course of an interview seeks, discussed the American and sits reference to the respective flations of the United States in the England's power. It is not America and with her bridgeheads advanced against other countries—even and sits reference to the Tirpits outposts, acquired in the course of eventues and sits reference to the results of the property in the course of the United States is about to build a galant the United States themselves—that rules the waves and revenues subsequent to the application for the increase in rates had of davancing rates and of a common notice, and the course of surpling per annum under ordinary traffic. On the contrary, present results show deficits of \$137,557,487 for October; \$1,585,055 for November; and an estimated deficit of \$17.

Present information from the burean of valuation indicates that the property investment account will be exceeded over trains and a less proportion of the ten of valuation indicates that the property investment account will be exceeded over \$120,000,000. If the return was to be based on valuation, instead of property, investment account, the amount short of property, they all against the United States themselves that rules the waves and rules and revenues subsequent to the application for the increase in rates had. The result of the percentage method of davancing rates and of a common and advancing rates and of a common and advancing rates and of a common of the first states and the contrary present results between the property in the course of the property of the return was to be based on valuation, instead of property, in a service produce revenue units along the course of produce revenue units along the co expenses hears far more flavily in terminal road unless the added revenues are equitably divided with respect to added costs. Lenger average hauts, heavier trains and a less proportion of the ten mile basis of junction, yard and station service produce revenue units rapidly on which rate advances apoly. Distributing frain service produces revenue units slowly; excess of junctions, yards and stations produce no revenue huits; but, on the contrary, they ail aggregate byerating costs with great rapidity and in a disproportionately large amount.

CABUSO WINNING BATTLE

AGAINST HEART ATTACK

New York, Feb. 17.—Fighting for life with all the mental and physical power of his supere constitution. Enries Caruso, world-famed dramatic tenor, remained conscious and cheerful today while music lovers the world over hoped and prayer that death might not yet hum forever the golden voice.

It seemed tonight, forty-eight hours after Caruso began waging battle against a severe heart attack following pleurisy, that he wished to do the substantian and pulse beat and exid that his mind was becoming clearer.

All the aid that medical science can offer the stricken singer was tendered at his bedside today. Oxygen was administered frequently and five physicians watched over the tenor one and two at a time. His wife never left his side. There she has maintained a sleepless minute.

### SAYS WHEN HE SAW CINOT AEROPLANE IT MADE HIM FEEL IT WAS ABOVE ALL

Mr. Tony Debes of 84 Broad Street, New Haven, Says the Beautiful Sight of the CINOT Plane Reminded Him That He Owed a Duty to Tell What CINOT Did for Him.

MR. TONY DEBES "I felt as if I should have come in

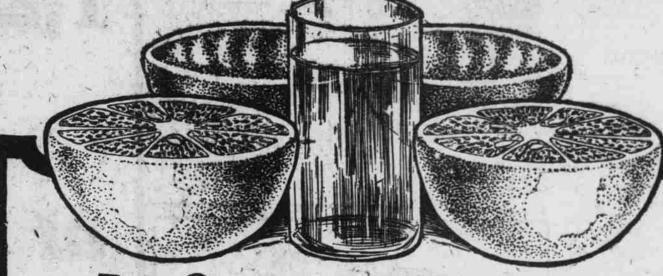

I saw the CINOT plane scaring through the heavens it reminded me of my duty and here I am to tell you what CINOT did for me," said Mr. Debes, who further says:

"I had been suffering for a long time with rheumatism in my right arm and leg and also a severe case of gas in-digestion shortly after eating. I would beleh up for hours and I could not seem to find relief.

"I would feel as if I had a chunk of lead in my stomach and would get severe headaches; my back would ache so bac that I could not stoop and was always lived out and seemed to have no ambition.

"I could not sleep nights and was very near a nervous wreck and was at the point of giving up when CINOT came along and relieved me of all my troubles. I am better in every way and endorse CINOT highly."
